Enabling Student Registration in OU D2L

To receive credit for their i>clicker responses, students must register their i>clicker remotes (i.e., tie their clicker ID to their student ID).

To enable i>clicker remote registration in D2L:

1. Log into OU D2L (http://learn.ou.edu) using your OUNetID (4x4) and password.
2. On the D2L Home page, select the course to which you want to enable i>clicker registration.
3. On your Course Home page, click the Content toolbar link.
4. From the Table of Contents section on the Content page, click the Add Activities button in the Module you’d like the link to appear, then click External Learning Tools link.
5. Under External Learning Tools, choose the link called “Register your i>clicker Remote”.
6. The Register your i>clicker LTI link will be placed in the selected module.
